

Pilot Ladder

New high-quality ladders ensure maximum safety and comfort thanks to the use of:

- 20 mm manila ropes, first class only, with a strength exceeding 24 kN
- steps made of hard wood, first class only, with ergonomic shapes, all rounded edges and a specially designed anti-slip surface
- damaged steps can be easily replaced by the ship's crew
- the possibility of extending / securing rope with manila first class only ropes of 48 kN strength each
- the seizing is handcrafted using a traditional method by experienced riggers
- the seizing connection is durable, resistant to sunlight and sea conditions
- appropriately increased stiffness of the ladder due to the durable connection of seizing and the compactness of the first class ropes
- Acc. To ISO 799-1:2019(E) , SOLAS
- Type A, or Type B with length from 3m up to 36m, Extension ropes 3m up to 30m
