

Rubber packing sheets

Rubber sheets are designed for performing seals, working statically unstretched.

- **SBR** – rubber sheets for general use, to use in natural conditions
- **NBR** – rubber sheets with increased resistance to greases, oil, fats, tested according to ISO1817 in standard IIR M903 oil
- **CR** – rubber sheets with increased resistance to weather conditions and weak acids; tested according to PN-ISO 1817 under the influence of 20% sulfuric acid VI
- **EPDM/SBR** – rubber sheets resistant to elevated temperatures, with increased resistance to atmospheric conditions; accelerated ageing tested according to PN-ISO 188 temp. 100°C
- **NR-L** – non-marking rubber sheets in natural color (beige), may be intended for contact with food stuffs.

On request we are able to produce rubber sheets in the range 45-90°ShA

Maximum width is 1400mm

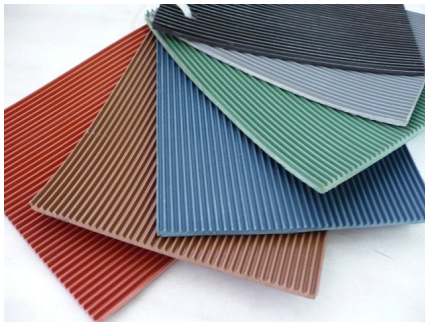

The thickness of the rubber produced in rolls is from 1 to 20mm

Length for rolls with a thickness from 1 to 4mm up to 20m

We produce rubber sheets with thickness from 20 to 50mm in size of 1m x 1m

Rubber ribbed floor

Group of floor coverings of different, corrugated surface. Floor coverings are well suited as a stabilizer on the surface of cargo transport vans, as well as floor surface storage and workshop.

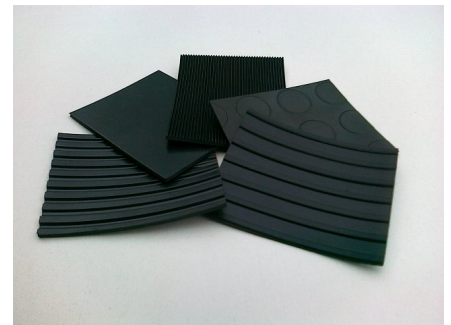

We are producer of rubber ribbed floor of three different kinds:

- small ribbed riffle
- wide ribbed riffle
- riffle MAX

We are producing floor coverings in types: standard, with increased resistance to oils and greases and with anti-static properties.
Floor coverings are available in a wide range of colors.

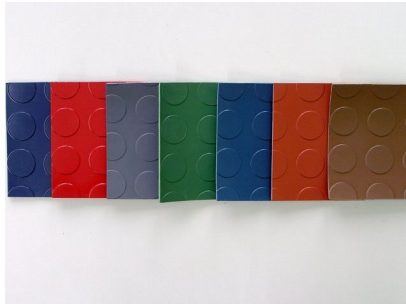

Standard rolls dimensions

- widths from 1000 to 1300 mm
- thickness from 3mm to 10mm

METRO Rubber carpet

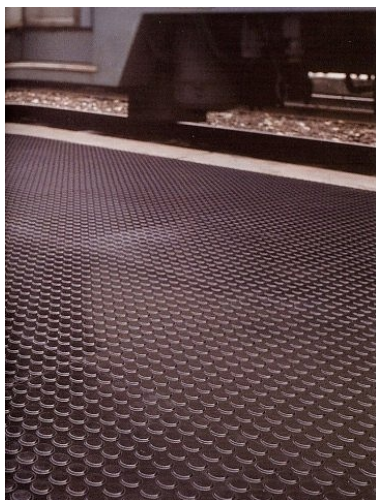

Metro rubber carpets are well suited as a stabilizer on the surface of cargo transport vans, as well as floor surface storage and workshop.

Metro rubber carpet can be placed:

- spread-free, without gluing
- glued to the bottom surface

Metro rubber carpet has coin front surface what gives it anti-slip properties and at the same time makes it easier to clean.

Metro rubber carpet is produced in 1450mm width and in 3mm, 4mm i 6mm thickness.
